## Retail Merchants Council Underway

A Retail Merchants' Council will be organized as a branch or division of the Kingston Area Chamber of Commerce.

This decision was made at an open meeting of local retailers Wednesday night in the court room of the City Hall at which Clyde Wonderly Jr. presided.

The proposed plan was first presented at a similar retailers' meeting on June 5. Although a great deal of discussion took place last night no major changes in the plan as developed by the retail merchants' committee of the Kingston Area Chamber of Commerce were made.

### Plan of Participation

Basically, the plan provides that participating merchants will contribute to a general promotional fund in proportion to their gross volume of business. The Chamber of Commerce, from membership funds, will provide an office, clerical help, use of equipment, other personnel and will serve as a coordinating agency. The controlling body of the council will consist of the chamber's retail committee plus two representatives of each of the four regional businessmen's organizations. Council directors must, however, represent contributing stores.

The council has several basic aims, including general or institutional advertising that the Kingston area is the best place to shop and obtain services, the support of district promotions, the dissemination of important information of special interest to retailers and contributing to one fund for such purposes as Christmas decorating, institutional advertising and promotions.

### Forms at Office

In the near future applications or agreement forms will be available. To date approximately 18 merchants have already indicated that they will support this unified and cooperative promotional program. Any merchants interested can secure agreement forms, as well as copies of the plan or organization, at the Chamber of Commerce office. However, participating stores need not be members of the Chamber of Commerce.

## Teamsters Favor 3-Year Contract, Trucks Roll Again

Trucks were rolling again today in the Hudson valley following ratification Wednesday night of a new three-year agreement by some 500 members of Local 445, Teamsters Union, at the labor temple in Newburgh.

The agreement calls for an increase of 20 cents an hour for the first year, 10 cents an hour the second year and five cents an hour the third year.

The pact also establishes a welfare fund to be supported by contributions of 10 cents an hour for the first year and an additional two cents an hour the second year.

Vacation is predicated on one day of paid vacation for each 20 working days. The number of days may not exceed two weeks, however.

### Construction Resumed

Signing of the contract means that sand, gravel and ready-mix concrete trucks are moving again in the valley and building and highway construction resuming.

A spokesman for the union told The Freeman that continuance of the cement strike may slow construction considerably but that the problem of transportation had been overcome.

Negotiating for the union were Theodore Daley, secretary-treasurer of the local and chairman of negotiations, James Hopkins, president, and Owen Kiniry, vice-president.

## Editors Advised to Fight Censorship of Information

San Francisco, July 11 (AP)—Rep. Moss (D-Calif.) told newspaper editors today it is time to shout "foul" because "you have been indicted without evidence" by secrecy-minded government officials.

Moss, chairman of the House Government Information subcommittee, referred to a Pentagon study group and to the security commission headed by Lloyd Wright in a speech prepared for the American Society of Newspaper Editors' (ASNE) convention. Moss said the two government groups favored strong legislation applicable to newsprint "leaked" information harmful to national security. But he said his sub-

committee found no proof of allegations that such practices occurred.

To illustrate how far he said the "climate of censorship" has spread, Moss told an incident he had just come across in Washington.

He said the editor of a military publication asked the Defense Department's office of security review for "clearance" of a review of a book by Confederate Lt. Gen. Richard Taylor published 78 years ago.

He said that editor, whom he did not name, informed the subcommittee he wanted Pentagon clearance because "the book is critical of the reconstruction period which in return is critical of our government," and "I

## 52 PC Sign Jap Trial In School Proposal Consolidation Is Rural Area Choice

High Court Sees Fair Handling

Washington, July 11 (AP)—The Supreme Court today authorized U. S. authorities to turn over G. William S. Girard to Japan for trial.

Chief Justice Warren read the high tribunal's unsigned per curiam for the court's opinion.

### Administration Victory

At the end of the opinion, the court said:

"There is every reason to believe that trial of U. S. Army Specialist 3/c William S. Girard in the Japanese courts will be conducted with the utmost fairness."

The decision was a major victory for the administration, which has contended that refusal to turn Girard over to the Japanese would be a grave threat to America's security.

The administration argument was that if the agreements under which Americans overseas may be tried by foreign courts for off-duty acts were cancelled, U. S. forces would have to come home.

### A Southern Thoreau:

## Man in Wilderness Can Live on 15 Cents a Day

By HAL BOYLE

Near Maryville, Tenn. (AP) — Here lives a man who can whip inflation by the only possible way.

He don't buy much. He rarely spends in public. He lives by a personal standard above the changing dollar.

"This is no stunt with me," said Bert Garner, a tall, bent intellectual who at the age of 71 points out he can and does at times exist at the rate of 15 cents a day—or less.

He hand grinds corn and soybeans, puts in a little chocolate or powdered milk, and—when hungry, makes a meal of it and says he is satisfied.

The woodchuck is his neighbor. At the moment seven skunks live under and out of his cabin.

### Lives in Paradise

"We get along fine," he said. "They come out at the whippoorwill's dusk holler, and go back at the whippoorwill's dawn. I tell people I live in paradise. I do."

Bert has worked in cities such as New York and Philadelphia, studied on the west coast. But either a greatness or weakness in his being has always brought him home to his woodland cabin near the hills of his birth—the great Smoky mountains. He figures he has held a job only 20 of his 71 years, and some of those 20 years were wasted.

He lives now all alone in a woodland building of his choice. It is a two-room cabin he built 37 years ago. It is in the area where his ancestors arrived some 200 years ago—or nearly.

Bert is slender, white-haired, widely read, and cheerfully proud that his way of life isn't for the family man.

Garnier has a major criticism of civilization as most of us know about it—and, on occasion, complain about it.

"They're in a rat race, trying to keep up with the Jones. Sometimes I feel that it is a good thing some people work so hard. 'Our education system doesn't prepare people for the right kind of leisure. You can work . . . or you can live . . . I like to live."

**No Spare Time**

Bert himself, who is interested in such momentous questions as the distribution of snakes in the 50-acre wilderness in which he built his cabin, also knows that to a disciple of nature and considered indolence there can be no spare time.

There are 50 different kinds of trees in his woodland empire, and he has grown 28 different fruits or vegetables in his garden.

So long as a bud burgeons, a bloom flowers, he is alert to the changing moods of nature,

#### Trump Coup Is Name For It

BY OSWALD JACOBY

Written for NEA Service

Bob Serjeant of Mendon, N. Y., writes,

"I did not know exactly what my partner's fourclub bid meant but figured that he had a good hand and decided to check for aces right away. When my partner showed one ace only I figured that he had to have a club suit that my jack would solidify and I decided to bid six no-trump."

"Much to my surprise I heard the words 'six hearts' come out of my mouth. When East doubled I should have run out to six no-trump which would have been a lay-down but I decided to redouble and try for a top score. 'West opened the ten of spades. East won with the ace and shifted to the ten of diamonds. I let it ride around to dummy's queen and played the nine of hearts. When West showed out the hand looked hopeless but I had nothing to lose by playing it out and finally stumbled into a winning play."

"I led another heart and finessed again. Back in my own hand I returned to dummy with a club and finessed the hearts for a third time. My next play was a second club to dummy and I proceeded to lead out the rest of dummy's club suit. East chose to discard rather than to ruff and I simply discarded in

### HOT ENOUGH FOR YOU?

No one can run the social gantlet of a summer without a complete glossary of weather conversation. In fact, our society probably would crack at the seams if we had to do without the weather cliches.

For those who haven't mastered this social must, we present a typical conversation, sparkling with acute observations on the weather (which "everyone talks about, but . . .").

"Hot enough for you?"

"Well, of course, it's not the heat, it's the humidity, you know."

"Looks like summer's really here."

"We could use some rain. Hold down the dust, you know."

"It's good for ducks, but that's about all."

"Helps the crops."

"Yeah, helps the crops."

"I can't ever remember it being so hot."

"Oh, used to be a lot hotter years ago."

"Yeah?"

"Yeah."

"I don't think these H-bomb explosions help it any."

"They're not tell all they know about how it's changed the weather."

"They say if you drink something hot, it cools you off."

"That's what they say."

"Hot enough for you?"

### THE SUMMER JOB

It is nothing new for college students to have summer employment. In days past even youngsters who were not working their way through school were glad to take jobs digging ditches, working in factories or even mowing lawns to earn spending money. Today, however, the summer job for students can be an important factor in their careers.

Business and industry today take a different attitude toward the young men and women who seek summer employment. They are regarded as potential full-time employees, and numerous firms hope to recruit future staff members from among these part-time workers.

Summer jobs of this kind are good for students. They can get some idea of how well they will like to make their careers in the businesses for which they are preparing. The practical experience they gain will help make their college studies easier and more meaningful.

Industry, too, will benefit from the arrangement. We live in an age when special training and aptitude are at a premium. What better place can industry look to for its future leaders than the pool of young people who have elected to advance their educations in the nation's colleges?

### WOMEN ON THE BENCH

Those reading about the trial of James R. Hoffa, second in command in the Teamsters Union and now accused of having paid to get secret government records about his superior, Dave Beck, may have noticed that the federal judge in the case is a woman, Burnita S. Matthews. She is almost, though not quite, unique.

The federal judiciary is one of the few remaining strongholds of the male. A hasty survey of the latest list shows only two other women, Mary H. Donlon of New York, who serves on the Customs Court, and Florence E. Allen of Ohio, who has been on the Court of Appeals since 1934.

It is surprising that there are no more. There are a fair number of women judges on state and local courts. They seem to have done well at the job, and some have served with real distinction. Judge Allen, for example, has repeatedly been suggested for the Supreme Court. We may yet live to see a woman on the bench of the highest court in the land.

### THE ROAD TO POWER

No matter what efforts will be made among the Russian people to find a form of government that is representative, the pull is likely to be in the direction of autocracy. A country that has for a thousand years been an autocracy, with a ruler who possessed final and despotic powers, and has never fought for individual liberty, is not likely quickly to find its political system in a form of representative government.

Even if one reads carefully Khrushchev's speech of last Saturday, little is found in it to justify his great excitement over the conduct of Malenkov, Molotov and Kaganovich. Their differences were not fundamental; surely not as great as those between let us say, Senator Wayne Morse and President Eisenhower; yet they were sufficient to justify a purge against two men of outstanding position among their own people and of considerable service to the cause of the revolution and to the success of Bolshevism.

But the autocrat cannot tolerate a difference of opinion. He has spoken and those who do not accept what he has said as final should drop dead. But quick! That was the attitude of Lenin; that was the attitude of Stalin. Khrushchev is now the autocrat and he will pursue traditional lines.

Some Americans, particularly official ones, believe that the current changes in Russia will strengthen Marshal Zhukov. For some reason, there are still Americans who regard the butcher of Hungary as a person of moral stature who is to be preferred to Khrushchev or Malenkov. This point of view is ridiculous in view of the history of the Russian Revolution. If Zhukov attempts to be Napoleon, he will meet the fate of Trotsky and Tukhachevsky, both of whom were not only of a greater value to the revolution but of greater stature and integrity than Zhukov.

The fact that President Eisenhower got to know Zhukov during World War II only gives Zhukov propaganda value in the United States. It means nothing within Soviet Russia and less than nothing in the Communist Party.

So, unless the Russian Army rises and kills the Communist Party as in 1917 the Kronstadt sailors rose and slaughtered the followers of Kerensky, Khrushchev will remain the master of Soviet Russia and as much of the international Communist Party as remains loyal to the Kremlin. Presently, such loyalty includes the American, French, British and Italian parties. It includes most of the satellites but there is undoubtedly an alliance, in formation, among Red China, Yugoslavia and Poland, that requires keen study and watchfulness. Even if some of the senior generals in the Russian Army were to attempt to exert power, it is doubtful that they would be followed by junior officers and the soldiers who are too much infiltrated by intensive party education.

It is therefore likely that Khrushchev will prevail and will hereafter do as he pleases without being required to argue points with such seniors as Molotov and Kaganovich and such equals as Malenkov and Shepilov. What he will do cannot be charted because Khrushchev has already disclosed amazing instability and a tendency to get drunk on public occasions and to express himself without due consideration of the consequences.

On the other hand, he can purr like a cat, as he did on the Columbia Broadcasting television show when he took it easy and acted like a haberdasher selling a necktie. In a word, he is unpredictable and incautious if externals only are studied. If, however, his entire career is studied, this is a man of great ability and enormous will, who had millions of human beings in the Ukraine murdered and recently ordered Zhukov to murder freely in Hungary. This is a man capable of every brutality. He has schemed his way to power as a servant of Stalin; he achieved power as a hater of Stalin, as the one who planted briars and nettles on Stalin's grave. He can smile like small boy; he will send his close pal, Malenkov, to his grave when it suits him.

There is no need to hurry about doing further business with him. He is not likely to honor his own signature, much less that of a subordinate. We ought to end our dealings with Russia until we know more about the situation. It is now too much in a state of flux.

### ★ Dr. Jordan Says ★

Almost Impossible to Avoid Common Dandruff

By EDWIN P. JORDAN, M.D.

Written for NEA Service

Dandruff of the scalp must be one of the most common health nuisances in our society.

No matter how often I write on this subject I continue to receive a great deal of correspondence asking for more.

Incidentally, I prefer to call it a nuisance because it constitutes no danger to general health. It does sometimes cause itching of the scalp and it probably speeds the loss of hair in some instances. Furthermore the shedding of dandruff on the hair and clothing often creates a problem of personal appearance.

**I DO NOT KNOW** whether dandruff is more frequent today. There is some possibility that this is the case. If so, possible factors include the greater use of barber shops and beauty salons where dandruff seems to be sometimes picked up from combs or brushes.

There are many reasons for believing that dandruff is at least in part the result of some infection. However, it has not been possible to agree on any single germ as the cause.

It is almost impossible to avoid dandruff. Nearly all of us have at one time or another developed dandruff and have found that once acquired it is difficult to cure. One thinks it is gone and then if some illness develops or one gets overtired it comes back worse than ever.

**CARE IN AVOIDING** combs and brushes used by others is about all that can be done to prevent dandruff. So far as treatment is concerned there are many things which can be done.

The general health should be kept up. Fresh air and exercise, tonics, nutritious foods and anything else which contribute to health may not cure dandruff, but are often suggested as measures which may keep it from getting worse.

**LOCAL TREATMENT** of the scalp is important. The aim is to keep the scalp free of the small greasy scales which clog up the skin. These can be removed by shampooing, but it is often helpful to soak them first with some oily preparation which softens the scales.

Sometimes a good deal of hair comes out with the shampoo. Lotions or ointments containing stimulating chemicals are often prescribed by skin specialists.

Treatment of the scalp for dandruff usually has to be kept up for months, or even years. Also there are certain other skin diseases such as seborrheic dermatitis and psoriasis which resemble dandruff but which may require different treatment.

His opinion, is about the same proportion as was the case during his active career.

Hoyt also declared that a willingness to throw dusters explained why some pitchers are popular with some major league managers. That would be hard to prove. But sooner or later, baseball will suffer and find itself in trouble unless the practice of dusting off the batters can be curbed.

### Altering of Unions' Setup Forecast in Court Ruling

By DAVID LAWRENCE

Washington, July 10 — One word now has been put into the Bill of Rights by six members of the Supreme Court of the United States which wasn't there when the document was originally written. The word is "associations."

Thus freedom of "association" now has been added to the freedoms of the press, religion and assembly and the right of petition covered by the First Amendment.

This could mean that the whole structure of trade unionism in America, particularly as it affects the rights of minorities in workers' organizations, now will undergo an important change. It could mean also that freedom of "association," which is the fundamental basis for segregation in public schools in the South, has perhaps been reinforced by the Supreme Court's decision.

Normally, constitutional amendments are made by the people through a two-thirds vote of the Congress and ratification is proclaimed when three-fourths of the states have approved. Here is how the First Amendment was phrased before June 17, 1957:

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press; or the right of the people peaceably to assemble, and to petition the government for a redress of grievances."

Here is how the Supreme Court on June 17 last, by a decision of 6 to 1, laid down the supreme law of the land:

"Nor can the First Amendment freedoms of speech, press, religion, or political belief and association be abridged." Further on in the same opinion, the court omitted the word "political" and broadened its definition as follows:

"The mere summoning of a witness and compelling him to testify against his will, about his beliefs, expressions or associations is a measure of government interference."

In another opinion rendered on the same day, the court again omitted the word "political" and, by a 6-to-2 vote, covered all "associations" by the citizen as follows:

"Merely to summon a witness and compel him, against his will, to disclose the nature of his past expressions and associations is a measure of governmental interference in these new right of 'association.'

As for the "segregation" problem in the South, freedom of "association" now can evidently be applied so that both segregated and mixed schools would be legalized. The student would have the right to go to a school where only his own race is in attendance or to a mixed school where all races are admitted.

It doubtless will be argued that the new word "association" does not give protection to all citizens but only to those with past "associations" with Communist fronts — the specially privileged class in America today.

To accept this argument, however, would surely appear to be a palpable deviation from the wording of the new First Amendment.

NEA Washington Correspondent

Washington — (NEA) — This

summer I'm going to be a wife and grandmother exclusively,"

Mrs. Eisenhower told a friend recently. It was just after she left a routine physical exam. It showed her in excellent health, although a little fatigued.

By tradition, her official duties as First Lady end June 1. They don't pick up until the fall. But the past few weeks have been hectic at the White House.

There has been a stream of foreign visitors in town and congressional delegations coming in for breakfast.

Mamie doesn't participate personally in some of the political activity of the White House. But when the quality of the hospitality of the Executive Mansion is at stake she'll double-check arrangements.

Her remark about being a grandmother means she plans to devote a lot of time to taking care of her son John's four children.

**MAYBE IT'S THE RIGID DIET** Sen. Homer Capehart (R-Ind.) has been on lately which has had him complaining about the Senate restaurant. Anyway, he's peevish because the 5,000 meals served each day there are putting the restaurant in the red.

He made a speech saying the restaurant might show a profit if it quit letting every Tom, Dick and Harry eat there and limit the grub to senators.

Most senators eat lunch and dinner in their restaurant each day during a regular session, but Capehart discovered that records showed senators were being served 200 meals per day.

This would indicate that eight senators are sneaking in an extra meal somewhere.

Val was one of the original Ike backers, worked like a demon during his first campaign and

then helped organize the White House staff when Ike moved in during World War 2. Val served heroically in the China-Burma-India theater and left service as a lieutenant colonel. He became governor of Nebraska and took up with Ike after that.

The Danes are sure to be happy with Val.

**PROFESSOR PUERTO RICO** Gov. Luis Munoz Marin was in town the other day and came up to the Press Club for a little noon preaching. Our PC leader had practiced his Spanish and pronounced the governor's name perfectly (MOON YOS MARIN), a feat which called forth this story from Munoz:

But Capehart couldn't be one of them, he insists, because he's on a diet and begrudges himself the two he does eat. He's limited to steak and watermelon, by the way.

**RETURN TO PARADISE—** Some 7,700 exiled Japanese may be returned to the lush Bonin Islands. Japanese Premier Nobusuke Kishi said Washington had assured him of this. The Japanese were driven out by U.S. air raids. After the war, 135 descendants of pre-Japanese settlers—many of them Americans—were repatriated. They've petitioned for but never been granted U.S. citizenship. Japan took the islands in the 1860's after the U.S. and Britain gave up their claims.

A family reunion was held at the home of Judge and Mrs. William Malloy Sr., over the weekend in honor of Mrs. William Malloy Jr. and her daughter, Sheila, who recently arrived from Monterey, Calif. They will fly to Germany July 15 to join Mr. Malloy who is stationed there. Among those present were Mr. and Mrs. Joseph Malloy and two sons of Wappingers Falls and Mr. and Mrs. Edward Schaffer and children of Highland.

Nancy Gordon, daughter of Mr. and Mrs. Phillip Gordon, had the honor to be among those chosen for a religious conference of congregation of Agudas Achim, Kingston. Teenagers were chosen from Canada, United States and Nova Scotia for their ability to get along with people and for their leadership. They spent two days in New York city, had an interview with Mayor Robert Wagner, visited the UN and other sites. Also attended the play "No Time for Sergeants" and met the cast and director. They were in South Fallsberg for three days having seminars, getting acquainted and exchanging ideas with Jewish people from other sections.

#### Still on Girard Case

Washington, July 11 (AP)—The Supreme Court went quietly today with consideration of the case of G. William S. Girard, giving no indication when it will announce its decision. Pending before the court is the question of whether U. S. authorities may lawfully surrender Girard, an army specialist 3C, to Japan for trial in connection with the fatal shooting of a Japanese woman on a firing range. The eight justices who listened to four hours of arguments Monday considered the case throughout yesterday.

## Wagner Receives Liberal Backing

New York, July 11 (AP)—The Liberal party, which opposed Democratic Mayor Robert F. Wagner in 1953, has nominated him for reelection next fall.

The party's convention last night followed a recommendation of its policy committee and endorsed Wagner and two of his two aides for reelection by a vote of 280 to 23. The two running mates are City Council President Abe Stark and Comptroller Lawrence E. Gerosa.

The Liberal party, which is confined to New York state, in most cases either runs its own candidates or supports Democrats. In 1953 it backed the late Rudolph Halley for mayor and marshalled 428,688 votes against Wagner, then running for the first time.

### Replies to Opposition

Four delegates spoke against the endorsement of Wagner's administration at the meeting last night. Alex Rose, party chairman, said in reply:

"Over all, Mayor Wagner gives a liberal interpretation to the needs of the people."

Continuing, he said, "The idea is not to isolate ourselves into a side street. There is nothing wrong with the coalition principle, even if we have to compromise from time to time."

Rose also said the Liberal party was responsible for starting Wagner on his way toward the mayoralty by endorsing him for Manhattan borough president in 1949. "We are responsible for the existence of Wagner and we should be proud of him," he said.

### Jack Endorsed

A short time before the endorsement of the citywide Democratic ticket, the New York County (Manhattan) committee of the Liberal party endorsed Manhattan Borough President Hulan E. Jack, a Negro Democrat, for reelection. He, too, had been opposed by the Liberals in 1953.

Republicans had sounded out the Liberals on a possibility of a coalition against Jack this year, the Republicans selected Melvin L. Krulewitch for Manhattan borough president last week.

The Liberal party is running its own candidates for most city council seats.

### Republican State

The Republican slate for citywide is: For Mayor—Robert K. Christenberry, hotel executive and former chairman of the state athletic commission; for city council president—Mrs. Caroline K. Simon, former member of the state commission against discrimination; for comptroller—State Sen. Walter G. McGahan of Queens.

The candidates designated by both the Democratic and Republican leaders are expected to be approved by the registered party members at the September primaries in the preponderantly Democratic city.

### Upstate Man Fined

Albany, N. Y., July 11 (AP)—The White House, hitting back at Nikita Khrushchev, said today the United States intends to continue its efforts to avoid "mass human destruction" by atomic weapons. The statement, issued with "the full knowledge" of President Eisenhower and Secretary of State Dulles, was put out after Khrushchev had labeled Eisenhower's talk about a "clean" hydrogen bomb a "stupid thing."

### Employment Up

Washington, July 11 (AP)—The nation's civilian employment reached a record June level of 66 1/2 million the government announced today. It was an increase of 1,300,000 over May, Secretary of Labor Mitchell and Secretary of Commerce Weeks said in a joint announcement.

The peak figure for the month was attributed to the summer employment of students, since further reductions were reported in a number of "hard goods" manufacturing industries.

## Warren Russell To Preside at Audio Council

Warren A. Russell, director of audio-visual education in Kingston city schools, will preside as president at a meeting of the New York State Audio-Visual Council which will meet at DeWitt Clinton Hotel, Albany, July 11-13.

Thursday's sessions will consist of committee meetings on various phases of the work of the organization such as certification, minimum standards of equipment, ways of improving in-service training of teachers in the use of audio-visual equipment, ways of improving on the benefits children may gain from such uses and other topics of a similar nature.

### Panel Is Featured

Friday's main session will feature a panel on "The Role of Audio-Visual Instruction in the Total Education Program" under the leadership of Dr. Paul Williams, associate in visual education of the State Education Department.

Saturday's main session will consist of a business meeting followed by discussion groups under the leadership of the panel members of Friday's session.

Other features of the meeting will be field trips to Sterling-Winthrop Research Institute on "The Story of Modern Medicine," an historical tour of Fort Crailo, Schuyler Mansion, Ten Broeck Mansion and the Albany Institute of History and Art. Another field trip will consist of a walking tour of the Capitol, the State Education Building and the Museum.

### Sections of . . .

The group bought all property, including terminals, north of Norwich, plus another section in the Middletown area, for \$4,140,000.

Morrison declined to comment on the syndicate's plans, saying he did not feel he could speak for his associates.

But he had said previously that the group assumed the Interstate Commerce Commission would not allow industries along the O & W to be left without transportation.

A court official in New York, however, said he doubted if any question would be raised regarding the sale which would require ICC action.

The receiver, meanwhile, has given other roads trackage rights to serve industries on some sections of the right-of-way. The trackage rights probably indicate which parts of the old railroad will continue to be operated.

### Missile Work Halted

Washington, July 11 (AP)—The air force today halted work on the multimillion dollar guided missile Navaho which it once planned would be as good an atomic warhead carrier as a ballistic weapon. The air force said the Navaho program, started in 1946, was being eliminated because of present and anticipated budget curtailments of air force spending. The Navaho is a rocket launched ram-jet powered missile designed to attain a speed of between two to three times greater than sound. It was developed as an earlier substitute for intercontinental ballistic missiles on which the air force is still working.

### Editors Advised

deemed it advisable to protect both the reviewer and myself by having it sent through security review. Moss did not say how the Pentagon reacted to the request.

Moss said the Pentagon study group headed by former Asst. Secretary of Defense Coolidge and the Wright Commission both found "too free a use of the secrecy stamp in government."

Although both groups proposed stiff legislation applicable to newsmen printing secrets, Moss added, neither group sought much information from persons other than the same "security experts" who he said overused the secret stamp.

It is time that you people who edit the nation's newspapers shout "foul," he said.

"You have been indicted without evidence. Unless you protest vigorously you are in danger of being convicted on the same flimsy grounds."

As poultry prices drift lower, beef, pork and lamb prices continue to climb. The annual summer rise in beef prices usually gets under way around Aug. 1. This year it started more than a month ahead of schedule. Market specialists say beef prices are being heavily promoted by supermarkets this week. Turkeys of all types and sizes are definitely on the bargain list.

It's Action, Not Talk, That Misbehaving Tommy's After

By MRS. MURIEL LAWRENCE

Bobby's mother grew up with adults who got very reproachful or angry if she didn't do what they wanted. To keep them in good temper, she learned to give them compliance until compliance became her only solution to conflicts with other people.

Naturally, after Bobby was born she was attracted by the permissive theory of child training. By making a virtue of letting Bobby do as he pleased, it fitted in perfectly with her fear of offending.

One day she and Bobby were crossing a traffic-crowded street. She tried to take his hand. As he jerked it away, he caught the flash of intense irritation on her face. The next moment he'd flung himself down full-length in the middle of the street.

Frightened parents often ask children why they misbehave to

postpone dealing with the misbehavior. So Bobby's mother said, "Why do you want to lie down in the street like that, darling?"

Defiantly, Bobby said, "Because I want to see how it feels to get run over and killed."

What he meant was, "Because I want to see if you'll carry your fear of offending me to the point of letting me get run over and killed."

At five, Bobby often does this kind of thing. Like other children whose parents fear to restrict them, he's always placing himself in precarious positions in the hope of forcing action from his mother in place of talk.

They are not wicked children. They're just trying to stretch their parents' old fear of displeasing people to the breaking point.

The problem is their parents' own hatred of control. In Bobby's mother's childhood,

control was so mixed up with hurt, despair and misjudgment that she naturally resented it. She still does. She withdraws any control of Bobby lest he feel the same intense dislike of her she felt and still feels for anyone who tells her what to do.

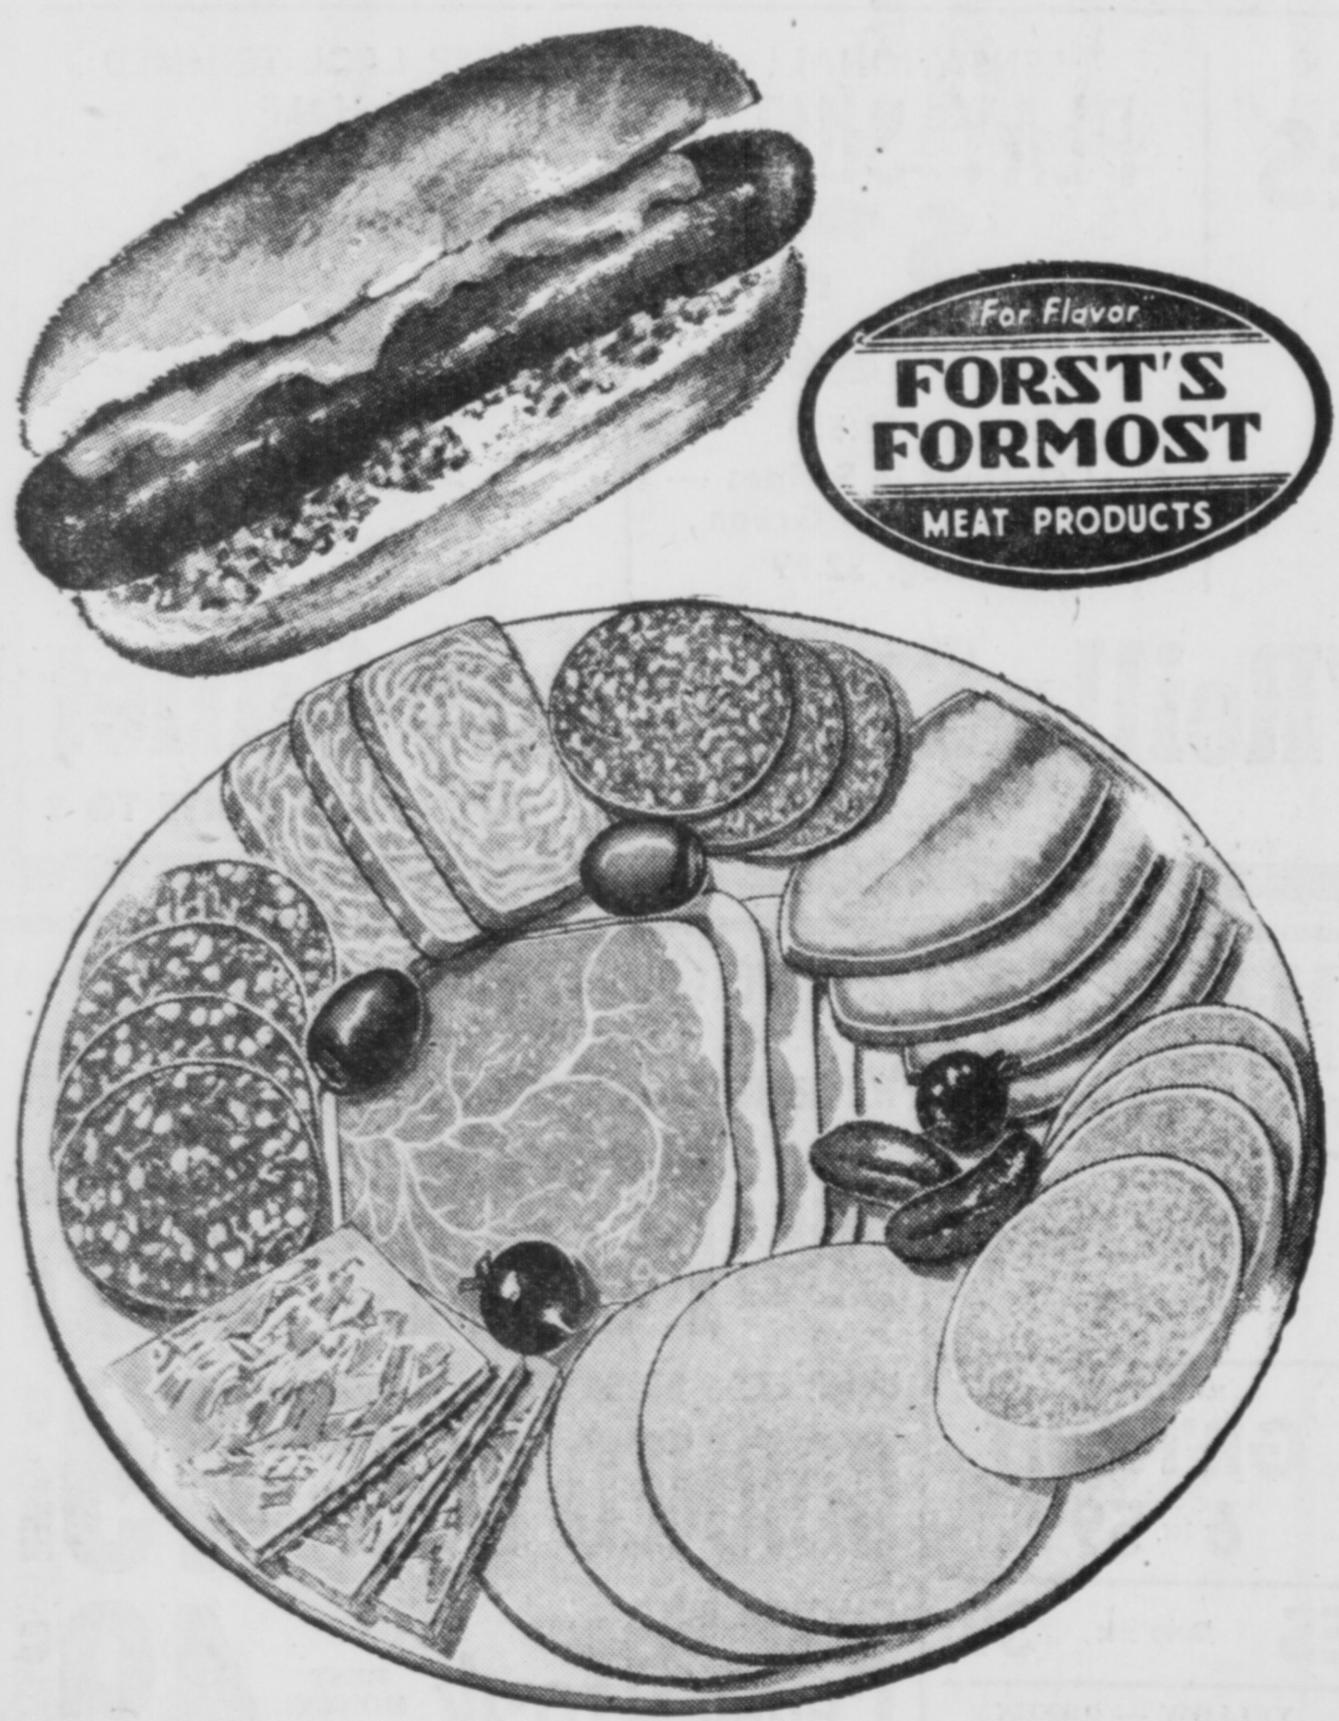

It's unreasonable to hate all control because our first experience of it was mixed up with hurt and injustice. All such unreasonableness produces for us a confused and confusing child. (All rights reserved, NEA Service, Inc.)

## Aga Khan, 79, Is Heart Victim

Geneva, Switzerland, July 11 (AP) — The Aga Khan III, a wealthy potentate to whom 20 million Moslems paid spiritual homage, died today. He was 79.

A glamorous figure on the international scene for many years, the Aga Khan succumbed to a sudden weakening of the heart during the night. He had been suffering from heart trouble since 1952.

### Ardent Race Follower

He was known as a sportsman with an ardent interest in race horses, a devotee of luxurious living, and a man with an eye for a beautiful woman. But he was also interested in affairs of state—and once served as president of the League of Nations.

He once expressed his love of material pleasures in these

words: "Have fun, it's later than you think."

But of his devotion to his Moslem faith:

"Each Friday, like every good Moslem, I spend an hour in meditation and prayer. That is my most beautiful hour."

### Disturbed by Aly

Prince Aly Khan, 46, has generally been regarded as the heir-apparent, but some doubt recently was expressed as to whether he or Prince Sadruddin, 24, the Aga's Harvard-educated younger son would be named. The Aga was said to have been disturbed about Aly's playboy activities. Aly is the former husband of Hollywood actress Rita Hayworth.

"Father is right in not discussing who will inherit his title," Sadruddin told an interviewer recently. "It would only cause unhappiness in the family. The question of succession has never been discussed by any one of us among the family."

### Son Was to Wed

Present at the bedside when death came was the Aga Khan's

wife—his fourth—and both sons. Sadruddin is planning to marry Nina Dyer, a London model. The wedding had been set for Monday.

The Aga Khan was flown to Geneva from Paris on June 18 to escape a heat spell which contributed to his deteriorating condition. His weight had dropped to 132 pounds—half of that in the days when he was weighed by his subjects against gold, platinum or diamonds on his various anniversaries. The money value went to the Aga Khan's many charities.

His family had gathered at his villa in the suburb of Versoix when attending physicians indicated the end was approaching.

### Safe Haven

Lima, Ohio (AP)—A large hole in a city street is usually a traffic hazard. But in Lima, such a hole was responsible for saving a boy's life. Douglas Weber, 3, suffered only minor bruises when a car backing out of a driveway "squashed" him into the hole.

STILL TALKING—Sen. Richard Russell (D-Ga.) has a final word for reporters as he starts to drive away from the White House after a 50-minute meeting with President Eisenhower. They talked over the civil rights bill which Russell and other southern senators oppose. Russell said the President's "mind is not closed to amendments which could clarify" the measure. ## Army Releases British Woman Held for Murder

Washington, July 11 (AP)—The Army today ordered the release and deportation of a British mother serving a life sentence for the murder of three of her children while stationed abroad with her American soldier husband.

She is Mrs. Eunice M. Brillhart of Rochdale, England. Her husband, Sgt. Robert W. Brillhart, is now serving with the Army at Sandia Base in New Mexico.

Faced Life Term

The Army announced that the remaining portion of her life sentence, which she is serving at the Federal Reformatory for Women at Alderson, W. Va., will be remitted so that she can be released on July 22 and turned over to the Immigration Service under the status of forces agreement with NATO nations.

The Army reviewed the case following a Supreme Court decision on June 10 which forbade military courts from trying civilians for capital crimes committed abroad.

Some Pentagon lawyers voiced doubt whether the Supreme Court ruling directly affected the Brillhart case, but the Army, after inquiries made by the British embassy, reopened the court-martial conviction and sentence.

## France Turns Down Bid for U. S. GI

Paris, July 11 (AP)—An army spokesman said today France has formally refused a request by the U. S. Army for custody of American soldier DeWayne McOske charged with the murder of an Algerian.

The 21-year-old Manhasset, N. Y., soldier was to appear in court today for a preliminary hearing.

The army has said "the French clearly have the right" to try McOske, although it had asked France to waive the right and permit him to be tried by army court-martial instead.

McOske is held in Sante prison on charges of shooting the Algerian in a Paris street quarrel over the price of black market cigarettes.

The U. S. request to France to relinquish its right to try McOske was regarded as merely a formality, since he was off duty when the shooting occurred. Off duty soldiers are subject to the laws of France under the status of forces agreement with NATO nations.

### Disposable Property

Cincinnati (AP)—The cost of getting rid of your wife can be tax deductible, the U. S. Sixth District Court of Appeals has ruled. The court said F. C. Bowers of Battle Creek, Mich., was entitled to write off \$45,000 in lawyers fees acquired during his recent divorce litigation because the money was spent "for the protection and conservation of Bowers' property."

**Climber Rescued, Will Do It Again**

Stockton, Calif., July 11 (AP)—"Of course I'll go on mountain climbing," says John Findley Scott, who was rescued by helicopter yesterday four days after he suffered severe injuries in a mountainside fall.

Scott, 23-year-old graduate student at the University of California, was reported in "pretty good shape" by his doctor despite fractures of the wrist, ankle, foot, two ribs and a vertebra and many cuts and bruises.

Flown first to a hospital in Bishop, then to hometown hospital here, Scott said there would be no more mountain climbing "for a while, as I guess I'll be at on my back for some time."

"And when I do start again, I'm going to be more cautious," he added.

Boston, July 11 (AP)—The air force today answered the question of what it was that floated lazily across New England skies last night. The air force research center at nearby Bedford identified the object—which earlier had been described variously as a "flying saucer" and a "satellite"—as one of their weather balloons, launched at Vernalis, Calif. The balloon, which appeared at dusk at an estimated 100,000 feet, prompted hundreds of curious to telephone news-

papers seeking answers as to what it really was.

## Briefly Told

Albany, N. Y., July 11 (AP)—New Yorkers should cooperate "to the fullest" with civil defense authorities Friday during "operation alert 1957," Gov. Harriman urged yesterday.

Harriman said citizens should participate in the nationwide exercise to familiarize themselves with CD signals and procedures.

"By knowing the warning signals and by properly and correctly observing them," Harriman said, "every citizen can greatly increase his and his family's chances of survival if enemy attack should occur."

The exercise is in methods of meeting the problems of nuclear attack.

Albany, N. Y., July 11 (AP)—Peter J. Dalessandro, Albany Democrat, resigned from the state Senate yesterday to become secretary to Senate Minority Leader Joseph Zaretzki.

He will receive \$8,395 annually in his new job. As senator, he received \$7,500 a year salary plus a \$1,000 expense account.

Dalessandro announced in May that he planned to give up his legislative seat for the job.

His place will be filled when Albany county voters go to the polls in the November election.

Saratoga, Springs, N. Y., July 11 (AP)—Ernest Palmer of Buffalo yesterday was elected state commander of the United Spanish War Veterans.

He succeeds James O'Keefe of Utica.

About 250 persons attended the meeting.

Portland, Ore., July 11 (AP)—Carol Gates of Derby, N. Y., yesterday was named a member of the board of trustees of the Youth Assembly of the International Society of Christian Endeavor.

The organization is holding its 44th annual convention here.

A little onion, cooked in butter, plus a few tablespoons of molasses and catchup, are good additions to vegetarian-style baked beans.

TO SEARCH THE STARS — The new radio telescope at Jodrell Bank, Eng., is ready for use during the International Geophysical Year. The 2,000-ton instrument, straddled on two supports which run on circular tracks, can detect stellar signals from any angle in space.

### Guard Soul Is Graham Advice

New York, July 11 (P)—Two great powers consider man's soul the most important thing in the world, even though man himself may not think so, says Evangelist Billy Graham.

The Baptist minister from North Carolina told 18,000 persons in Madison Square Garden last night that God and Satan wage a continuous battle for man's soul.

Graham took as his text Matthew 16:24—"For what is a man profited if he shall gain the whole world and lose his own soul."

Satan, Graham said, "works day and night to snare" a man's soul.

"It is more valuable than anything else and he tries to blind you to how valuable it is," he said.

Worth Entire World

"God himself has declared that one soul saved is worth the entire world. We don't realize the price God put, each soul."

"Why is it that a man can make a million dollars and still be miserable?" Graham asked. "He's lost his soul, that's why." And he urged his audience to cast aside materialism and give thought to spiritual things.

29,236 For Christ

At the evangelist's call for "Decisions for Christ," 509 persons came forward, raising the total of the crusade so far to 29,236. Total attendance since the New York crusade started May 15 is 948,000.

Graham announced that he will conduct a second religious crusade in San Francisco, starting April 27.

### Health for All

#### ARE YOU POSITIVE?

Recently an island in the Pacific was relocated 4,000 feet to the northwest of its previous position. They didn't pick it up and move it. They simply discovered by modern methods of measurement that it had been incorrectly placed on the maps.

The change won't be very noticeable on even a large scale map. But 4,000 feet can make quite a difference when you're cruising around in the dark looking for an island.

Modern science has taken a lot of the guess work out of life. Take your health, for example. In grandmother's day, a doctor almost never saw an early case of tuberculosis. When patients came to him with symptoms of TB that he could diagnose with the limited knowledge and equipment he had, they were almost always in an advanced stage of the disease. With modern knowledge, with X-ray and laboratory equipment, the doctor can diagnose TB in its early stages before the patient is aware of any symptoms of disease.

But the doctor still has a problem. Too few of us take advantage of the scientific advances he can make available to preserve and protect our health. Have you ever said, "I couldn't have TB. I don't feel sick," or "I'm too old to have TB," or "Only poor people have TB?" Are you positive?

TB recognizes no limits on age, income, race or sex. You can have it without obvious symptoms. But you don't have to wonder. You can find out for sure. A simple skin test will tell whether or not you've been infected with TB germs. A chest X-ray and laboratory tests will tell whether or not active disease has developed. It takes so little time to make sure. So why waste time wondering? It can mean the difference between an early case of TB which is most easily and quickly cured, or an advanced case and months, even years, under treatment. It could mean the difference between life and death.

### Plattekill

Plattekill, July 10—Attention is called to picnic dates of members of the Plattekill-Rossville Methodist Church, and the Plattekill Grange, Saturday, July 13, at Algonquin Park, Newburgh.

Miss Anne Egiziano was one of the bridesmaids at the wedding of Miss Joanna K. White and Joseph Board, of Cornwall-on-Hudson, at St. Thomas's Church, Newburgh, recently.

Local students attending the Wallkill Central High School, and members of the graduating class of 1957 are Bernice Kalisky, Gayle Wager, Alex Dembroskie, Anthony Ferraiuolo, Charles Van Duser and Pedro Perez.

Relatives from Arizona have been visiting Mr. and Mrs. Leslie Strongman.

Miss Mary Carroll of Amsterdam, was a recent guest of her sister, Mrs. Milton Van Duser and family.

Author of "Children Are People" and "Etiquette," etc.

### AN EXTRA COUPLE

Dear Mrs. Post: Will you please answer the following question for me: If a couple is asked out for the evening to celebrate a wedding anniversary along with three other couples, all knowing that they will each pay for their own dinner, is it right for one couple to invite a fifth to join them without the consent of the ones who asked us? I think that since it is Dutch Treat, it is perfectly all right to ask another couple to come along, but I have been told that it would be wrong to do so. What is your opinion?

Answer: No, you should not invite another couple without the consent of those who invited you.

### One Who Is Always Late

Dear Mrs. Post: How can we break a friend of chronic lateness? My husband thinks it's a thankless undertaking to try and break anyone of this bad habit. He says either you accept a person as she is or you give her up. I'm willing to try anything because I think her bad habit is soon going to stand in her way and she is an otherwise very nice person. But what can I do?

Answer: It is almost impossible to break a fixed habit and lateness is one of the most incurable. You might invite her for dinner and serve promptly on the hour you had named. If you wait for her, you, obviously encourage her. On the other hand, if she finds dinner over, or that you

have gone on without her, she may reform.

### Marking Luggage

Dear Mrs. Post: When one has a name plate to be placed on luggage, is it permissible to use only the first name? If one is married, should just the initials be used or could the name be printed in full—L. M. S. or Mrs. Robert Smith?

Answer: Luggage is marked with the owner's initials.

Should the lady offer her hand when greeting friends or being introduced? Mrs. Post is sorry she cannot answer personal mail. Her leaflet E-17, "Introductions," answers this question. To obtain a copy, send 10 cents in coin to Dept. EP, care of The Kingston Daily Freeman, P. O. Box 99, Station G, New York 19, N. Y. (Released by The Bell Syndicate, Inc.)

Geneva, Switzerland, July 11 (CP)—U. S. Ambassador U. Alexis Johnson and Red Chinese Ambassador Wang Ping-nan rounded out two years of negotiations today and agreed to meet again on Aug. 8. The two ambassadors conferred for about two hours at their 68th meeting since Aug. 1, 1955. They are negotiating the release of American civilians held in China and a possible Red Chinese renunciation of force against Formosa. Today's meeting brought no change in the deadlock. Several Americans have been released by the Chinese since the talks started, but six remain in jail, including two serving life sentences.

# Chick Boice No-Hits Rotary in BR League

A superlative pitching job by Chick Boice, who tossed a no-hitter and struck out 17, catapulted him into the Babe Ruth League "Hall of Fame" last night as the Vols romped to a 12-2 victory of Rotary.

Boice was almost untouchable as he allowed only six men to reach first, two of them scoring.

He embellished his pitching exploits by walloping a home run.

The Vols backed up Boice with some hefty hitting.

They staged a seven-run rally in the third, picked up two in the fifth and three more in the sixth. Boice's four-ply blast gained some extra-base support in Joe Van Dyke's triple.

Rotary used two pitchers, Mike Keefer and Terry Corkery, in attempt to stem the tide. Keefer issued two walks and fanned five while Corkery gave up five bases on balls and struck out the same number. Keefer was tagged with the loss.

Rotary scored two runs in the second frame but Boice held them in check the rest of the way.

Boice's 17 strikeouts was tops for the year in the league.

The VFW and Kiwanis battled to a 9-all tie in seven innings and the contest will be completed Friday, July 19, probably continued from the point at which it was halted.

Bob Boss, the Indians' flinger struck out 10 but had control trouble and issued nine passes. Greiner had streaks of wildness, allowing eight walks but managed to get out of the jams.

# Frank Boyce Tosses Rec Loop No-Hitter

A four-ply blast, single and double rescued Frank Boyce from an almost inglorious outing and enabled him to register an eight-inning, no-hit performance as Hilltop Rest edged Prospect Dairy, 2-1, last night in the Recreation Softball League.

In other action, P & G blasted Chez Emile, 20-7; Shannon's romped over Wimpy's, 11-3, and Miron's defeated Subway Grill, 6-4.

## League Standings

	W	L	GB
Pat & George's	11	5	...
Miron's	10	6	2
Ch. Emile	10	6	2
Hilltop Rest	9	7	2
Shannon's	7	7	3
Prospect Dairy	5	8	3 1/2
Subway Grill	7	9	4
Wimpy's Grill	3	14	8 1/2

Boyce came within two outs of losing his no-hitter but a climactic finish saved him from oblivion.

With Prospect leading, 1-0, in the top of the seventh and one away, Don Hobart unloaded a horrendous homer to tie it all. Lee Hooker singled and Orlando Felipe's double provided the cushion to give the Hilltoppers their ninth win and move them into fourth place, two games from the top.

Boyce issued four passes and fanned eight. Joe Venuti, charged with the loss, allowed seven hits.

Pat and George's maintained their first place standing by thumping Chez Emile, 20-7, as George Halpin gave up five runs in the first frame, but Eddie Passante came on to put out the fire and pitched five-hit ball the rest of the route. R. Young slammed four hits and drove in five runs.

homer by Pete Buttercarvolli with one on in the third broke up a 2-all game and Shannon's coasted to an 11-3 win over Wimpy's.

Mike Boyle pulled a home run out of his "do-it-yourself" pitcher's kit with one aboard in the sixth to break up a tie game and send Miron's to a 6-4 victory over Subway. Bob Schatzel and Dick Bezemer also hit for the circuit.

### Old-Fashioned Lemonade Maintains Modern Pace

**HEAT RELIEF** is waiting in this icy array of lemonade made from frozen concentrate, served in various shaped glasses.

BY GAYNOR MADDOX

NEA Food and Markets Editor

Old-fashioned lemonade is keeping step with modern life. Today, a quart can be made instantly with a six-ounce can of California frozen concentrate for lemonade.

Serve it in goblets or brandy snifters with frosted rims. To frost glasses, dip rims lightly in lemonade, then in sugar; chill.

Frappé the lemonade in a blender and serve elegantly in champagne glasses with short straws. To make about three cups of frappé lemonade, place contents of one six-ounce can of frozen concentrate for lemonade and three cups finely cracked ice in chilled blender. Put top on

blender. Run blender until consistency of snow, about 20 seconds.

To give a Southern flair, serve in glass mugs with sprigs of bright green mint.

What could be cooler-looking than a long drink of lemonade in a Pilsener glass garnished with a lemon slice, a maraschino cherry and a sprig of mint?

Here's another way: serve in squat juice glasses with whole-cinnamon stick stirrers. To make stirrers, string two whole-cinnamon sticks together on a toothpick.

**TOMORROW'S DINNER:** Baked beans, frankfurters, brown bread, butter or margarine, red and green cole slaw, fresh blackberry pie, cheese, lemonade, coffee, tea, milk.

## Malenkov Is Sent Off to Remote Power Plant Job

London, July 11 (AP)—Moscow radio says none of the deposed Kremlin leaders is being persecuted. It made that declaration in announcing that Georgi Malenkov is being hustled off to run a power plant 1,800 miles from Moscow and the other ousted leaders are getting other unspecified jobs.

The broadcast last night also asserted that the appointment of the former premier as manager of the hydroelectric station at Ust Kamenogorsk is proof that the Soviet system is democratic.

But observers pointed out that Malenkov — target of the most serious accusations of the top four purged leaders — would be unable to offer much opposition to Communist party boss Nikita Khrushchev in Ust Kamenogorsk even if he should try. It's about as remote a spot as there is in the Soviet Union.

The broadcast did not give the nature of the new assignments for V. M. Molotov, Lazar Kaganovich and Dmitri Shepilov, who were ousted from their Kremlin posts along with Malenkov for "anti-party activities." It said only that they had been given other work.

### May Abandon Ferry

Washington, July 11 (AP)—The Interstate Commerce Commission authorized the Erie Railroad today to abandon its Hudson river passenger ferry service between Jersey City, N. J., and Chambers street in New York city, effective Aug. 15. The abandonment permit was issued in connection with the authority granted Erie last year to change its main Hudson river passenger terminal from Jersey City to Hoboken, N. J., where it is now using Lackawanna terminal facilities, including use by Erie passengers of Lackawanna's ferry service between Hoboken and Barclay street in New York city.

### 10 Cruisers Destroyed

Erie, Pa., July 11 (AP)—Firemen and coast guardsmen risked their lives last night to save several cruisers and two tugs in a fire. The blaze destroyed 10 cruisers and their boat houses near the public dock at the foot of State street. Hundreds of spectators watched the firemen bring the flames under control. For a time the huge dock was threatened. There was no official estimate of the damage but unofficial estimates ranged as high as \$50,000.

### Shop, Auto Are Lost in Accord Blaze Wednesday

An automobile repair shop and its contents, including a 1954 convertible, were completely destroyed by fire of undetermined origin early Wednesday night in Accord.

Several thousands dollars worth of uninsured tools and other equipment were lost in the flames which razed the garage, owned by Friend Smith.

Also destroyed was the convertible owned by Norman and Charles DePuy of Accord.

The Accord Fire Department responded but was unable to save the building.

Time of the fire was listed as 6:30 p. m. It is still under investigation by Ellenville state police.

Mr. Smith reportedly has a small amount of insurance on the building—about \$800.

## Kingston Rotary's New President Takes Over Office

WILLIAM E. RYLANCE  
William E. Rylance, president of William Rylance & Sons, commercial printers of 45 Hurley avenue, assumed his duties as president of the Kingston Rotary Club at its regular luncheon Wednesday.

In the absence of Robert L. Sabin, immediate past-president, who is confined to his home by illness, Samuel Scudder, a member of the Kingston Club, who is now serving as district governor, presented Mr. Rylance.

Mr. Rylance gave a brief report on the past year's activities for Mr. Sabin and spoke about club plans for the coming year. The names of the chairman of the various committees for 1957-58 were announced for the fiscal year which started July 1. Plans for a club assembly were announced for early September.

On August 21 Kingston Rotarians will entertain golfers from other clubs, including Poughkeepsie and Newburgh, for a day of golf and inter-club dinner at the Wiltwyck Country Club.

President Rylance lives at 44 West Chestnut street and has three children. He is a director of the Kingston Area Chamber of Commerce and has been very active in civic affairs.

## Man Who Fought Priest Facing Attempted Murder

Ridgeway, Ont., July 11 (AP)—A man whose jaw was allegedly broken in a fight July 4 with a 250-pound social-worker priest from Buffalo, N. Y., has been charged with attempted murder. Robert A. Rosenberger, 57, of Bertie Township was charged yesterday with attempted murder and assault with intent to commit an indictable felony.

The charge was made on complaint of the Very Rev. Msgr. Franklin M. Kellher, 53, director of the Working Boys' Home in Buffalo, N. Y. Msgr. Kellher, a 250-pound wrestler, is widely known in Buffalo for his work in fighting juvenile delinquency.

He told police Rosenberger tried to run him down in an automobile, then left the car to attack him with a butcher knife. In a short fight which followed, he told police, Rosenberger's jaw was broken and he suffered other injuries which sent him to the hospital.

He was released yesterday and surrendered to police here.

The priest, who owns a summer home about a block away from Rosenberger's in this resort area, told newsmen: "I don't know the man at all and I can give no reason for the attack."

He said Rosenberger telephoned him four times July 4 using "vile and obscene language."

Msgr. Kellher said he then arranged to meet Rosenberger that night to talk to him in person.

The alleged assault and subsequent fight took place on a road near their two homes, police reported.

Rosenberger's attorney said his client denied the charges.

### Guards Accept Offer

Las Vegas, Nev., July 11 (AP)—Unionized security guards at the nearby atomic test site voted last night to accept the latest company offer on wages and other benefits, the union announced. The Independent Guards Assn. of Nevada had set a strike deadline of July 16. They are employed by Federal Services, Inc., which is under contract to the Atomic Energy Commission to provide security protection. Approximately 125 guards were involved in the dispute.

## Dutchess Fair Is To Feature Garden Shows This Year

Visitors to the 112th Dutchess County Fair in Rhinebeck next month will see garden-fresh flower shows on any day they visit the showgrounds. Four shows are planned during the six days and nights of the fair, August 23 through 28.

There will be competitive horticultural and artistic shows on Friday, August 23, and on Monday, August 26. There will be non-competitive invitation shows on Sunday, August 25, and Wednesday, August 28.

Horticulture classes are open to anyone, providing entries are grown by the exhibitor. Artistic classes are open to anyone. The latter will be on the themes "Let's Be Oriental," and "County Fair."

There will be artistic classes for children, too, on themes of "Let's Pretend," and "County Fair Midway." There will be separate classes for the 5 to 10-year group and the 11 to 15-year group.

This year's flower shows will

include the always popular garden club project. Clubs will depict the artistic development of a section of garden including the use of water, such as a bird bath. Mrs. Henry Staley, Rhinebeck, is consultant.

Mrs. Fred Tator is chairman and Mrs. Jacki Buttis vice chairman of this year's flower shows. Both are Rhinebeck residents. Mrs. George Boehm and Mrs. Herman Bode head children's show arrangements. Mrs. Herbert Decker is chairman of the invitation shows.

Long Beach, Calif. (AP)—After granting a woman a divorce recently, Superior Judge Ralph K. Pierson asked her informally why she was willing to let her husband have their TV set. Her answer: "Well, I've been sitting watching it for four years now while he's been out playing around. So I guess it's his turn."

There will be artistic classes for children, too, on themes of "Let's Pretend," and "County Fair Midway." There will be separate classes for the 5 to 10-year group and the 11 to 15-year group.

## Do You Remember

By SOPHIE MILLER

It was interesting to receive the following card from William J. Smith of 20-2nd avenue, Albany: "Can you tell me what happened to the replica of the steamboat 'Clermont' used in the Hudson-Fulton celebration of 1909. For many years she was docked in the lagoon behind the Day Line Dock at Kingston Point." I guess most of the readers of this column know the story only too well. Too bad the Clermont was sold to private ownership who in time took out her machinery and the rotting hull was stripped. Perhaps if she had remained the property of the government or group they might have continued to take care of her like they do of museums.

Those who have been watching with such interest the coming of Mayflower II may be interested to read "Some Replicas of Historic Ships." By Alexander Crosby Brown on page 105 in the American Neptune magazine of April 1954. One learns from this fine illustrated article that going back to the 1893 World's Columbian Exposition in Chicago Christopher Columbus ships were duplicated for display. They were built in Spain. Nina II and Pinta II were completed for the account of the United States Government and Santa Maria II for the Spanish Government from designs prepared by Fernandez Duro and Monleon. They intended these ships to be not only historically perfect, but also seaworthy. All three were launched at the navy yard in Cadiz on June 26, 1892, and soon after sailed from Palos as did Columbus himself," author writes.

The first two caravels were taken in tow by a United States cruiser and thus prosaically brought across the ocean to America. The Spanish Navy, however, to its considerable honor and credit, elected to convey the 71 foot waterline Santa Maria II in the manner of her predecessor. Sailing down from Spain to the Canary Island, she departed from Tenerife Feb. 22, 1893 bound for Cuba. Her voyage across the Western Ocean, so it is reported, was somewhat rougher than Columbus had experienced 400 years earlier, but the little vessel arrived safely in the West Indies on April 7 and thence was taken in tow by a Spanish cruiser for the remainder of her trip.

"Her passage up the eastern seaboard was interrupted on April 12 when she cast off the tow line and made sail in order to enter Hampton Roads in style for a brief visit in connection with the International Naval Rendezvous. Thence she went on to New York Harbor for similar festivities before proceeding via inland waterways to her ultimate destination of Chicago, reached on July 8, 1893, after a voyage of 8,600 miles.

When the Fair was over, after everyone visiting the World's Columbian Exposition had seen the three ships at the lagoon by the Agricultural Building, the Santa Maria II was presented to the United States Government by the Spanish crown. With ownership transferred to the city of Chicago, all three were then moored in Jackson Park harbor. Nina II and Pinta II survived respectively until 1918 and 1919 when the first, badly deteriorated, was sunk and the other accidentally burned. Santa Maria II made barnstorming trips across the country and repaired about 1920 for around \$100,000. She was still afloat until 1952 at the age of 60, early that year a fire badly damaged her and officials of the Chicago Park District finally decided to scrap her. Now I wonder what lies ahead for the newest historic ship replica, Mayflower II.

## Quits as ICA Head

Washington, July 11 (P)—John B. Hollister resigned today as director of the International Cooperation Administration (ICA). The resignation will take effect when a successor qualifies for the foreign aid post. President Eisenhower accepted the resignation with regret. He noted that Hollister, who has served two years in the ICA position, already has stayed on longer than he had planned.

CLIMBER RESCUED—John Findley Scott, 23, Stockton, Calif., college student, is removed from Air Force helicopter at Bishop, Calif., after it rescued him from 11,000-foot level of high Sierra. He fell while mountain climbing four days before. M/Sgt. Arthur Jacobsen is at stretcher head. (AP Wirephoto)
